

## **On Christmas Eve**

Tonight I'll make a wish for snow  
Tonight I want to find a star I can follow  
There's fighting on the news again  
Unhappy New Year  
And I need to find something I can believe in  
On Christmas Eve

The Christmas bells ring out over the high street  
Twinkling fairy lights banish shadows from the mall  
No bonus at the food bank  
'Tis the season of corporate greed  
And I need to find something I can believe in  
On Christmas Eve

Then I saw random acts of kindness  
Around me by the score  
I saw people linking hands  
As they tried to stop a war  
I saw families who had little  
Giving money to the poor  
Then I found something to believe in

Tonight we're walking in the snow  
Tonight we're ringing the bells for a better tomorrow  
With holly and mistletoe  
We'll bring in a Happy New Year  
And I'm glad I found something to believe in  
Yes I'm glad I found something to believe in  
On Christmas Eve
